Your One-Stop Solution for Diabetes Care

Managing diabetes requires expert care and a holistic approach. At M.P. Shah Hospital, we offer multidisciplinary diabetes packages designed to support your health journey with personalised care, advanced diagnostics, and expert medical guidance.

Why Choose Our Diabetes Packages?

One-Stop Diabetes Care:

From diagnosis to management, everything you need under one roof.

Multidisciplinary Team :

Specialists in endocrinology, cardiology, nephrology, nutrition, and more.

Personalised treatment plans :

Tailored to your unique health needs. Advanced Diagnostic Tools: Early detection and prevention of complications.

Our Comprehensive Diabetes Packages Include

Consultation with a multidisciplinary team, including an endocrinologist, dietitian, nutritionist, counselling, and other specialists.

Blood sugar & HBA1c monitoring for accurate diabetes control.

Kidney & heart health checks to prevent complications early.

Personalised nutritional & lifestyle coaching from certified dietitians.

Foot examination for long-term diabetes management.

Who should take up the packages?

1. Newly diagnosed individuals looking for structured care
2. People with diabetes needing regular monitoring
3. Individuals at risk of diabetes for early detection and prevention.
